

# YouScript Actionable Medication List

Surfacing evidence-based drug-gene interaction guidance within the clinical workflow

YouScript's database contains almost 2,000 unique drugs, herbals, and OTC medications and over 90 phenotypes. Our clinical content team continuously evaluates new drugs, research, and data, and created a library of over 17,000 professionally curated published references and product inserts.

## Actionable Drug-Gene Interactions

The table below is a targeted list totaling 138 drugs within YouScript which contain a defined, actionable drug-gene interaction. For a comprehensive list of drugs with any drug-gene interaction, contact us at [info@youscript.com](mailto:info@youscript.com).

abacavir	daclatasvir	fluorouracil	nefazodone
amitriptyline	dapsone	fluoxetine	nilotinib
arformoterol	darifenacin	flurbiprofen	nitrofurantoin
aripiprazole	dasabuvir / ombitasvir /	fluvoxamine	nortriptyline
aripiprazole lauroxil	paritaprevir / ritonavir	formoterol	olaparib
atomoxetine	desipramine	galantamine	olaratumab
avelumab	desvenlafaxine	glimepiride	ombitasvir / paritaprevir
azathioprine	deutetrabenazine	glipizide	/ ritonavir
belinostat	dexlansoprazole	iloperidone	omeprazole
blinatumomab	dextromethorphan /	imipramine	ondansetron
boceprevir	quinidine	indacaterol	oxcarbazepine
brexpiprazole	diazepam	irinotecan	palonosetron
brivaracetam	dolutegravir	isoniazid / pyrazinamide	pantoprazole
capecitabine	donepezil	/ rifampin	paroxetine
carbamazepine	doxepin	isosorbide mononitrate	pazopanib
cariprazine	dronabinol	lacosamide	peginterferon alfa-2b
carisoprodol	drospirenone / ethinyl	lansoprazole	pegloticase
carvedilol	estradiol	ledipasvir / sofosbuvir	perphenazine
celecoxib	duloxetine	lesinurad	phenytoin
cevimeline	efavirenz	mafenide	pimozide
chloroquine	elbasvir / grazoprevir	mercaptopurine	piroxicam
chlorpropamide	eltrombopag	methylene blue	prasugrel
cisplatin	erythromycin	metoclopramide	probenecid
citalopram	ethylsuccinate /	metoprolol	propafenone
clobazam	sulfisoxazole acetyl	mirabegron	propranolol
clomipramine	escitalopram	modafinil	protriptyline
clopidogrel	esomeprazole	moviprep	quinidine
clozapine	fesoterodine	nalidixic acid	quinine
codeine	flibanserin	nebivolol	rabeprazole
